

You and some friends are going camping. Part of camping includes the following actions (not necessarily in this order):

1. Setting up the campsite. Talking about the day's weather.
2. Activities throughout the day.
3. Activities for when it's dark.
4. Dealing with accidents or pests as they occur.
5. Planning for how to prepare meals.

Plan a skit with your group, which takes into account these areas of camping. You must use some vocabulary from EVERY SECTION of your vocabulary list (there are 8 sections). You should use present tense, Uds. commands and preterite tense throughout your skit. The skit should be around 2:00 in length.

Grades will be determined on content, creativity, and effective use of time. A group that does not extend their full effort and completes a bare-minimum, uncreative, "Check the box" type of skit can expect to receive a 70% on the assignment. Skits will be presented in class tomorrow. No, you do not have to memorize the skit. You will read your lines. Every group member should have a FULL COPY of the script!
